## **Work Experience**

### **Freelance Work - Austin Gatan Photography - Web Developer**

**August 2016 - September 2016**

- Created a multi-page portfolio website for client
- Developed with minimal bootstrapping to make the website responsive but also unique enough to stand out from other bootstrap websites
- Implemented minimal JS to decrease page load time due to a large amount of high-resolution photos
- Used Magnific Popup plugin for the user to click on any image in the gallery and view it as a modal. The user can move back and forth between the images without leaving the modal view

### **Namedrop.IO - Front End Developer**

**June 2016 – September 2016**

- Rebuild front-end using Aurelia.IO and Anguar.JS into a single-paged web application

### **Freelance Work — iamNU Music Profile Page - Web Developer**

**March 2016 – March 2016**

- Implemented JQuery and Javascript functions for the one-page scroll animation feature
- Used Google Search API tailored for Soundcloud searches to give user result of searches with an overlay design
- Heavy use of CSS3 for modern and clean design
